I am applying for the Finance Master Data Specialist position at Sephora in Dubai. With over 20 years of experience in HR analytics, telecommunications and media, specializing in machine learning, data visualization, and process optimization across American, European and Southeast Asian markets, I have consistently driven data-driven decision-making and organizational excellence.

Key achievements include:

1. Implementation of Eightfold system enabling AI-powered Talent Acquisition and Talent Management using skills taxonomy.
2. Implementation of HR systems such as Service Now Enterprise for workflow journeys to improve employee experience and Qualtrics for enabling continuous sensing strategy to improve employee engagement.
3. Improving data-driven decision-making efficiency by 30% through HR transformation initiatives.
4. Reducing employee attrition by 15% and improving budget optimization by 20% using machine learning algorithms.
5. Saving 500+ man-hours annually by implementing automation in HR processes.
6. Creating 50+ Tableau and Power BI dashboards, enhancing real-time access to key metrics.

My expertise encompasses machine learning implementation, data visualization, process optimization, and project management. I have a proven track record of leading cross-functional teams and managing multi-million budgets to deliver impactful results. As an Analytics Manager at Amdocs, I've demonstrated my ability to leverage cutting-edge technologies to develop scalable, high-performance solutions that drive business growth and operational efficiency. My experience includes managing complex data pipelines, implementing predictive analytics models, creating compelling actionable insights through Data Visualization and optimizing system performance across various platforms.

I am available for an interview at your convenience and can join with one month's notice. I look forward to the opportunity to discuss how I can contribute to your organization's data-driven success and drive innovation in your Data driven initiatives.

Sincerely,

Anup Kumar Jana
