TECHNOLOGY & BUSINESS ANALYTICS LEADER

Machine Learning | Data Visualization and Reporting | Data Engineering | Process Optimization | Project Management

Strategic Technology & Analytics Leader with 20+ years at a global telecommunications technology leader. Led 20-member team implementing ML algorithms that achieved 30% reduction in attrition for internal candidates and drove successful HR transformation initiatives. Architected and scaled central People Analytics function supporting 550+ HR professionals and impacting 30,000+ employees globally. Demonstrated success in increasing internal mobility from 27% to 46% and improving gender representation to 33%. Expert in Tableau, Power BI, and process automation, delivering data-driven insights that influence C-suite decisions. **Seeking executive leadership opportunities** to drive organizational excellence and sustainable growth. **Available to join with 1 month notice.**

Notable Achievement Highlights (Last 5 Years):

1. Implementation of HR systems such as Service Now Enterprise for workflow journeys to improve employee experience and Qualtrics for enabling continuous sensing strategy to improve employee engagement (2025)
2. Led initiatives to improve HR processes, increasing data-driven decision-making efficiency by 30% and earning recognition (2024)
3. Spearheaded skill-based workforce planning shift, optimizing talent allocation for 10,000+ employees across regions (2024)
4. Implementation of Eightfold system enabling AI-powered Talent Acquisition and Talent Management using skills taxonomy (2023)
5. Implemented automation using Python and advanced Excel, saving 500+ man-hours annually in HR processes (2023)
6. Implemented ML algorithms for attrition prediction and budget optimization, reducing employee attrition by 15% and improving budget optimization by 20% (2022)
7. Created 50+ Tableau and Power BI dashboards with Python integration, improving real-time access to key metrics for stakeholders (2021)

WORK EXPERIENCE

Amdocs - Pune

09/2021 - Present

Technology & Analytics Manager

Led a 20-member global HR Technology & Analytics division with 7 direct reports, managing strategic initiatives impacting 30,000+ employees and reporting to CHRO's immediate subordinate. Transformed HR operations through data-driven solutions that increased internal mobility by 46% and improved gender pay parity by 10%.

- **HR Technology:** Lead the implementation and integration of HR technology systems across the organization, improving HR operational efficiency by 10%. Manage the full life cycle of HR software solutions, including evaluation, selection, and deployment of HRMS/HRIS platforms such as [Eightfold, Qualtrics, ServiceNow, Data Platform, etc.].
- **Machine Learning:** Spearheaded the development and deployment of a machine learning model for employee attrition prediction, leveraging ensemble methods and feature engineering. Achieved 85% accuracy (AUC-ROC: 0.92) on holdout set, outperforming baseline by 15%. Model incorporated 50+ features from HR data, including performance metrics, engagement scores, and tenure information
- **Data Visualization and Reporting:** Engineered an end-to-end automated reporting pipeline using Python and Power BI, integrating multiple data sources. Developed interactive dashboards with real-time KPI tracking, reducing report generation time by 70%. Implemented custom visualizations and drill-down capabilities, increasing stakeholder data accessibility by 90% and driving a 40% uptick in data-driven decision making
- **Process Optimization:** Implemented standardized KPIs, restructured OLAs/SLAs across department and established consistent metrics tracking thereby achieving 30% overall process improvement and 25% reduced bottlenecks

Analytics Lead - People Analytics

05/2019 - 08/2021

- **Business Intelligence:** Engineered dynamic Tableau and Power BI dashboards with Python-integrated ETL processes, reducing data preparation time by 60%. Developed interactive visualizations that increased user engagement by 75% and facilitated a 40% improvement in data-driven decision-making across departments
- **Reporting Automation:** Engineered end-to-end reporting solutions using Python, VBA, and Power Query, automating 80% of manual processes. Implemented intelligent data pipelines and self-updating dashboards, reducing report generation time by 70% and increasing data accuracy by 95%. Identified and executed 15 key automation opportunities, resulting in annual cost savings of 0.25 Million USD and a 40% boost in team productivity
- **Data Engineering:** Achieved 90% data accessibility and 40% data quality improvement through ETL processes, validation frameworks, normalization scripts, imputation algorithms, and custom API integrations

Operational Excellence - COE Specialist

06/2016 - 05/2019

- **Process Excellence:** Implemented a comprehensive Tracking & Audit Framework for AT&T legacy applications, resulting in 30% improvement in metric target achievement and 40% reduction in process inefficiencies

- **Quality Assurance:** Developed and maintained a robust Quality and Process Implementation system for AT&T's Delivery and Managed Services, achieving 95% compliance with SLAs and 50% improvement in vendor quality index
- **Risk Assessment:** Implemented FMEA and Quantitative Risk Analysis, achieving 80% pre-impact risk mitigation, 40% fewer escalations, and 25% faster project delivery. Risk scoring system increased mitigation effectiveness by 60%, prioritizing high-impact areas

Quality Assurance Expert

06/2010 - 06/2016

- **Quality Assurance:** Implemented Prime SI Quality Management methodology for Vodafone's programs in Netherlands and Ireland, leading to 10 Unify release deployments, thereby achieving 30% fewer post-deployment issues, 25% improved system stability, and 95% quality standards adherence
- **Command Center Management:** Managed Technical Command Center for deployment and migration activities, ensuring 100% infrastructure readiness, resulting in 40% reduced deployment downtime and 50% faster issue resolution during critical phases
- **Vendor Management:** Conducted comprehensive vendor audits on development processes, delivering actionable insights that led to 35% improved vendor code quality, 20% fewer vendor-related delays, and 45% increased adherence to quality standards across all deliverables

Senior Subject Matter Expert

09/2004 - 05/2010

- **Project Management:** Led Scrum team for key publishing applications, implementing Agile methodologies that increased project delivery efficiency by 40%. Streamlined requirements gathering and impact analysis, reducing project initiation time by 30% and improving stakeholder satisfaction by 25%
- **Process Optimization:** Orchestrated Agile team management and mentorship program, resulting in 50% faster defect resolution and 35% improvement in UAT support. Implemented cross-functional knowledge sharing, boosting team productivity by 45% and reducing onboarding time for new members by 60%
- **System Management:** Spearheaded Agile change management and system development for iGen system, supporting R.H. Donnelley and Dex Media Inc merger. Achieved 98% on-time sprint deliveries, 30% reduction in post-release issues, and 20% increase in overall system stability

EDUCATION

Masters of Science: Software Engineering - Birla Institute of Technology and Science (BITS Pilani), India

Bachelors of Science: Computer Science - University of Mumbai, Pune, India

SKILLS

Python Programming | Power BI Development | Tableau Development | Data Visualization Techniques | Critical Thinking | Attention to Detail | Business Acumen | Data Storytelling | Project Management | HRIS | HR Technology | SQL Database Management | Data Cleaning and Preprocessing | Statistical Analysis | Machine Learning Algorithms | ETL Processes | Data Modeling | Dashboard Design | Predictive Analytics | Agile Methodologies | Data Mining | A/B Testing | Time Series Analysis | Natural Language Processing | KPI Development and Tracking | Power Query | Microsoft Excel | VBA | PostgreSQL | MySQL | Snowflake | Scikit-learn | XGBoost | Random Forests | Ensemble Methods | Feature Engineering | Hyperparameter Tuning | Program Management | Stakeholder Management | Budget Management

LANGUAGE COMPETENCIES

- English: Bilingual / Native fluency
- Hindi: Advanced fluency
- Bengali: Intermediate fluency
- Marathi: Intermediate fluency

CERTIFICATIONS

- Deep Learning Certification by deeplearning.ai, 2019
- Data Science Pro Degree by Imarticus Learning, 2018

OTHER ACCOMPLISHMENTS

Certificate of Recognition for HR Transformation Program (Improved HR Processes) (2024)

Certificate of Recognition for Harmony Program (Skill based Organization) (2024)

Quality Recognition Award leading improvement processes in AT&T account. (2018)
